STYLISH SHADE SAILS
BUILT TO LAST

HIGH QUALITY READY MADE SHADE SAILS

Kool Series shade sails are built to last. They have been designed and manufactured in New Zealand to a very high standard and are perfect for the discerning DIY enthusiast. SHADETEC 320 fabric is very durable and comes in a large range of designer colours. Our enhanced corner design has a 316 stainless steel D-ring reinforced with a double layer of mildew resistant webbing. All hems have webbing reinforcing and are triple stitched with PTFE thread that will last for over 13 years without rotting. The strong webbing in the edge and the curved sides ensure that the sail will sit snugly and fly gracefully without excessive movement when installed.

Kool Series shade sails will invariably add style, comfort and class to your outdoor setting. Our PTFE sewing thread is guaranteed to last for the life of the fabric, and it maintains the strength

of the seam even under the harshest outdoor conditions. It does not deteriorate, burst or break, despite years of exposure to weather and extreme temperatures.

- › Designed for easy installation
- › High (90%) UV block and high shade factor
- › 13 year warranty
- › Simply add fitting hardware and follow the provided instructions to install

NOTE 1: These measurements are taken from the shackle at each corner, they do not include tensioners or fixings. These measurements are the size of the shade sail before it is stretched out or tensioned. For best results we recommend that a turnbuckle tensioner is used at every corner of the shade sail.

NOTE 2: Hardware not included.

HARDWARE

Marine grade 316 Stainless Steel
D rings in each corner.
